

D4.1 TRACY Platform (Pre-Prod, Production and Demonstration Appliances)

Lead Beneficiary: Performance Technologies (PT)

Dissemination Level: SEN

Date: 30/09/2024

GA Number: 101102641

Executive Summary

The TRACY Appliance offers a fully deployed version of the TRACY Platform, designed to assist Law Enforcement Agencies (LEAs) in understanding and effectively utilizing the TRACY tools and methodology. These environments come with all the necessary TRACY tools pre-installed and pre-configured, ensuring seamless support for various fundamental workflows and use cases. Additionally, the appliance includes the most up-to-date TRACY demonstration and training content, enabling LEAs to familiarize themselves with the platform's capabilities in a practical context.

This report provides an overview of the functionalities encompassed within the D4.1 deliverable, which consists of multiple operational systems. These include the **Demonstration and Training Environment** (PT), the **pre-production environment** (HPOL), and the **production environment** (HPOL). Each system is tailored to meet specific operational needs, ensuring that users can engage with the platform in both learning and real-world scenarios.
